Boise, ID 83716

PROFESSIONAL SUMMARY

UI/UX designer and interactive developer who builds playful, user-centered experiences across Unity, web (HTML/CSS/JavaScript), and XR. Strong in rapid prototyping, clear communication, and collaborating with multidisciplinary teams to ship polished, joyful products especially game-like and educational experiences.

SKILLS

- Interaction design and user flows
 - Usability testing and information architecture
 - Unity and Unreal Engine development
 - Swift and SwiftUI applications
 - Adobe Creative Cloud suite (Photoshop, XD, Animate, Premiere Pro)
 - Effective communication
- Wireframing and prototyping
 - Design handoff processes
 - Web technologies (HTML/CSS/JavaScript)
 - Version control (Git/GitHub)
 - Ownership and adaptability

EXPERIENCE

- APPLE SPECIALIST

Apple Retail

Boise, ID

May 2025 - Present

- Translate customer needs into tailored product recommendations and hands-on demos; guide onboarding from purchase through setup.
 - Troubleshoot hardware/software issues and explain technical concepts clearly to non-technical users - strong empathy and communication.
- LEAD UI/UX DESIGNER

Boise State University

Boise, ID

February 2022 - August 2023

- Led UX for a Personal Finance Tracker built for Boise State students; partnered with a 3-person team from concept through delivery.
 - Created user flows, wireframes, and high-fidelity UI screens; ensured the interface was intuitive, accessible, and visually consistent.

EDUCATION

- B.S. IN GAMES, INTERACTIVE MEDIA & MOBILE TECHNOLOGIES

Boise State University, ID

December 2025

CERTIFICATIONS

- XR Developer (Program Certificate) — Boise State University, Games, Interactive Media & Mobile (GIMM) | May 2025
 - Learn How To Make A Fighting Game In Unreal Engine, Unreal University - August 2024-November 2024
- Epic Games Game Design Certificate, Unreal through Coursera, December 2025-Present
