

James Russo

UI/UX DESIGNER, XR DEVELOPER, GAME DESIGNER

Profile

I am a dedicated and hardworking individual known for my ability to thrive in dynamic environments. With a versatile skill set and a strong commitment to continuous learning, I quickly adapt to new challenges and consistently seek opportunities to broaden my abilities.

Education

Pursuing Bachelor of Science Degree, Boise State University, Boise

AUGUST 2021 – DECEMBER 2025

Finishing major Games, Interactive, Media and Mobile technologies Expected in 2025.

Employment History

Apple Specialist, Apple Retail, Boise

MAY 2025 – PRESENT

As an Apple Specialist, I help customers discover, purchase, and set up Apple products that best fit their needs. I provide personalized solutions, demonstrate product features, and ensure each customer has a seamless experience from consultation to setup. My role also involves troubleshooting, delivering technical support, and building long-term customer relationships while representing Apple's values of innovation and customer care.

Lead UI/UX designer , Boise State , Boise

FEBRUARY 2022 – AUGUST 2023

I collaborated with a team of three to develop a Financial Tracker designed for students at Boise State University, serving as the Lead Designer. In this role, I was responsible for creating intuitive, user-friendly interfaces and ensuring the overall design aligned with the needs of our target audience, enhancing both functionality and user experience.

Current Courses

G.I.M.M. 490 Senior Capstone 2, Boise

JANUARY 2025 – MAY 2025

This course focuses on completing a real-world project that applies the skills and tools learned throughout the program. Emphasizing teamwork, project management, and product development, students work collaboratively to design, develop, and deliver a polished, professional-quality application—whether web-based, mobile, or software—ready for real-world use.

G.I.M.M. 440 Digital Portfolio, Boise

JANUARY 2025 – MAY 2025

focuses on strengthening professional portfolios through personal projects, refining existing work, and preparing for job applications to showcase skills effectively. Students will also focus on building a strong professional presence and actively applying to industry opportunities.

ITM 370 AI Augmented Projects, Boise

JANUARY 2025 – MAY 2025

ITM 370 AI Augmented Projects focuses on applying artificial intelligence tools to enhance project development. Students will integrate AI technologies into real-world applications, leveraging AI to improve efficiency, creativity, and problem-solving across various projects.
